Underwriting to Fit Your Needs

We have developed multiple ways to administer coverage to you - including situations where you may have been declined by other companies.

Your application will be reviewed based on the full disclosure of your medical history that you provide.

□ **Standard underwriting** - The Silver plan option provides a \$50,000 lifetime benefit for eligible pre-existing conditions that existed at or prior to the effective date, subject to a maximum of \$5,000 per period of coverage after coverage has been in effect for 24 continuous months.

□ **Exclusionary rider(s)** - With an exclusionary rider, we are able to extend coverage for your medical needs, with the exception of the specific excluded condition named in the rider. This allows standard pre-existing condition benefits for non-ridered conditions that may otherwise have been declined.

□ **Flexible underwriting rider** - The flexible underwriting rider will allow us to extend coverage to you even if you have significant, ongoing and/or chronic pre-existing conditions. For a nominal annual administration fee, coverage is extended for a pre-existing condition following 24 months of continuous coverage, during which you are symptom, advice or treatment free for that particular condition.
